Instructions:

- 1, When TGe surface attachment isolator adopts reflow welding process, TGe maximum temperature does not exceed 260 degrees;
- 2, TGe reflected power is only 10W, if you need more can use TGe way of circulator plus resistance;
- 3, Only some common frequencies in TGe table, can be produced according to TGe user's requirements;
- 4, If you do not find what you are looking for, please contact us!
